Provide beautiful spaces for productive interactions.

Showcasing a contemporary vibe with a floating top aesthetic, Tessera features a sleek and angular design. Its vast array of storage options allows the user to tailor it to their personal needs, while desk and adjustable height worksurface options create maximum productivity and versatility. The unique wall panel allows storage, shelves, and surfaces to be strategically placed to add visual interest and functional elements.

Take your workstation to new heights.

Tessera’s adjustable height design accommodates standing tasks, intermediate elevations, and worksurface heights to meet personal preferences and workstyles. The desk raises and lowers with an easy-to-use control pad and reveals complementary or contrasting legs while concealing the lift mechanism. The removable end panels allow cords to be hidden to maintain Tessera’s sleek design.

From conference meetings and executive gatherings to collaborating and interacting, Tessera offers clean lines and simplicity. Its comprehensive table offering gives you all the pieces necessary to create a cohesive space that is as beautiful as it is functional. Include storage and media components to maximize technology and accommodate hybrid needs. Add cushions to Tessera's bench credenza storage for a creative and comfortable seating experience.

Tessera tables are available in multiple heights, offering a collection of solutions that can accommodate nearly any situation. Utilize Tessera tables and benches to create dining spaces that double as productivity hubs. For a more elevated experience, include counter height or bar height tables. Integrate Tessera's occasional tables to create quaint meeting spaces, add functionality to executive offices, or welcome guests in lobby areas.

Tessera's wall panels create vertical storage and display space that can be designed for unique needs. With a variety of surface materials, wall panel configurations, and storage compositions, this wall solution adds texture, layers, and mixed material opportunities.
